

Statistical Laboratory Open Afternoon

Wednesday 25 November 2.15 - 4.30pm

ALL WELCOME

Information about

Part III (MMath/MASt)

Ph.D. Opportunities in the Statistical Laboratory

Areas of interest:

Statistics

Pure and Applied Probability

Optimization & Systems

Including a special presentation:

3pm MR2, CMS “Research in the Statistical Laboratory,”

by Professor James Norris, the Director,

with an opportunity for questions, followed by

tea, coffee and cakes in Pavilion D Common room .

Topics studied include:

Random Processes; Communication Networks; Statistical Modelling and Computing;

Causal Networks; Graphical Methods; Bayesian Methods in Biostatistics;

Monte Carlo Methods in Statistics; Mathematical Statistics; Stochastic Analysis;

Mathematical Finance; Insurance and Risk; Statistical Mechanics;

Percolation; Optimization

Quantum Information Theory

UNIVERSITY OF
CAMBRIDGE

Statistical Laboratory, Centre for Mathematical Sciences, Wilberforce Road, Cambridge, CB3 0WB
